

Layer-1 validation plots

One row per model component, columns are plot types. Train and held-out are shown within each plot with cross-fold error bars.

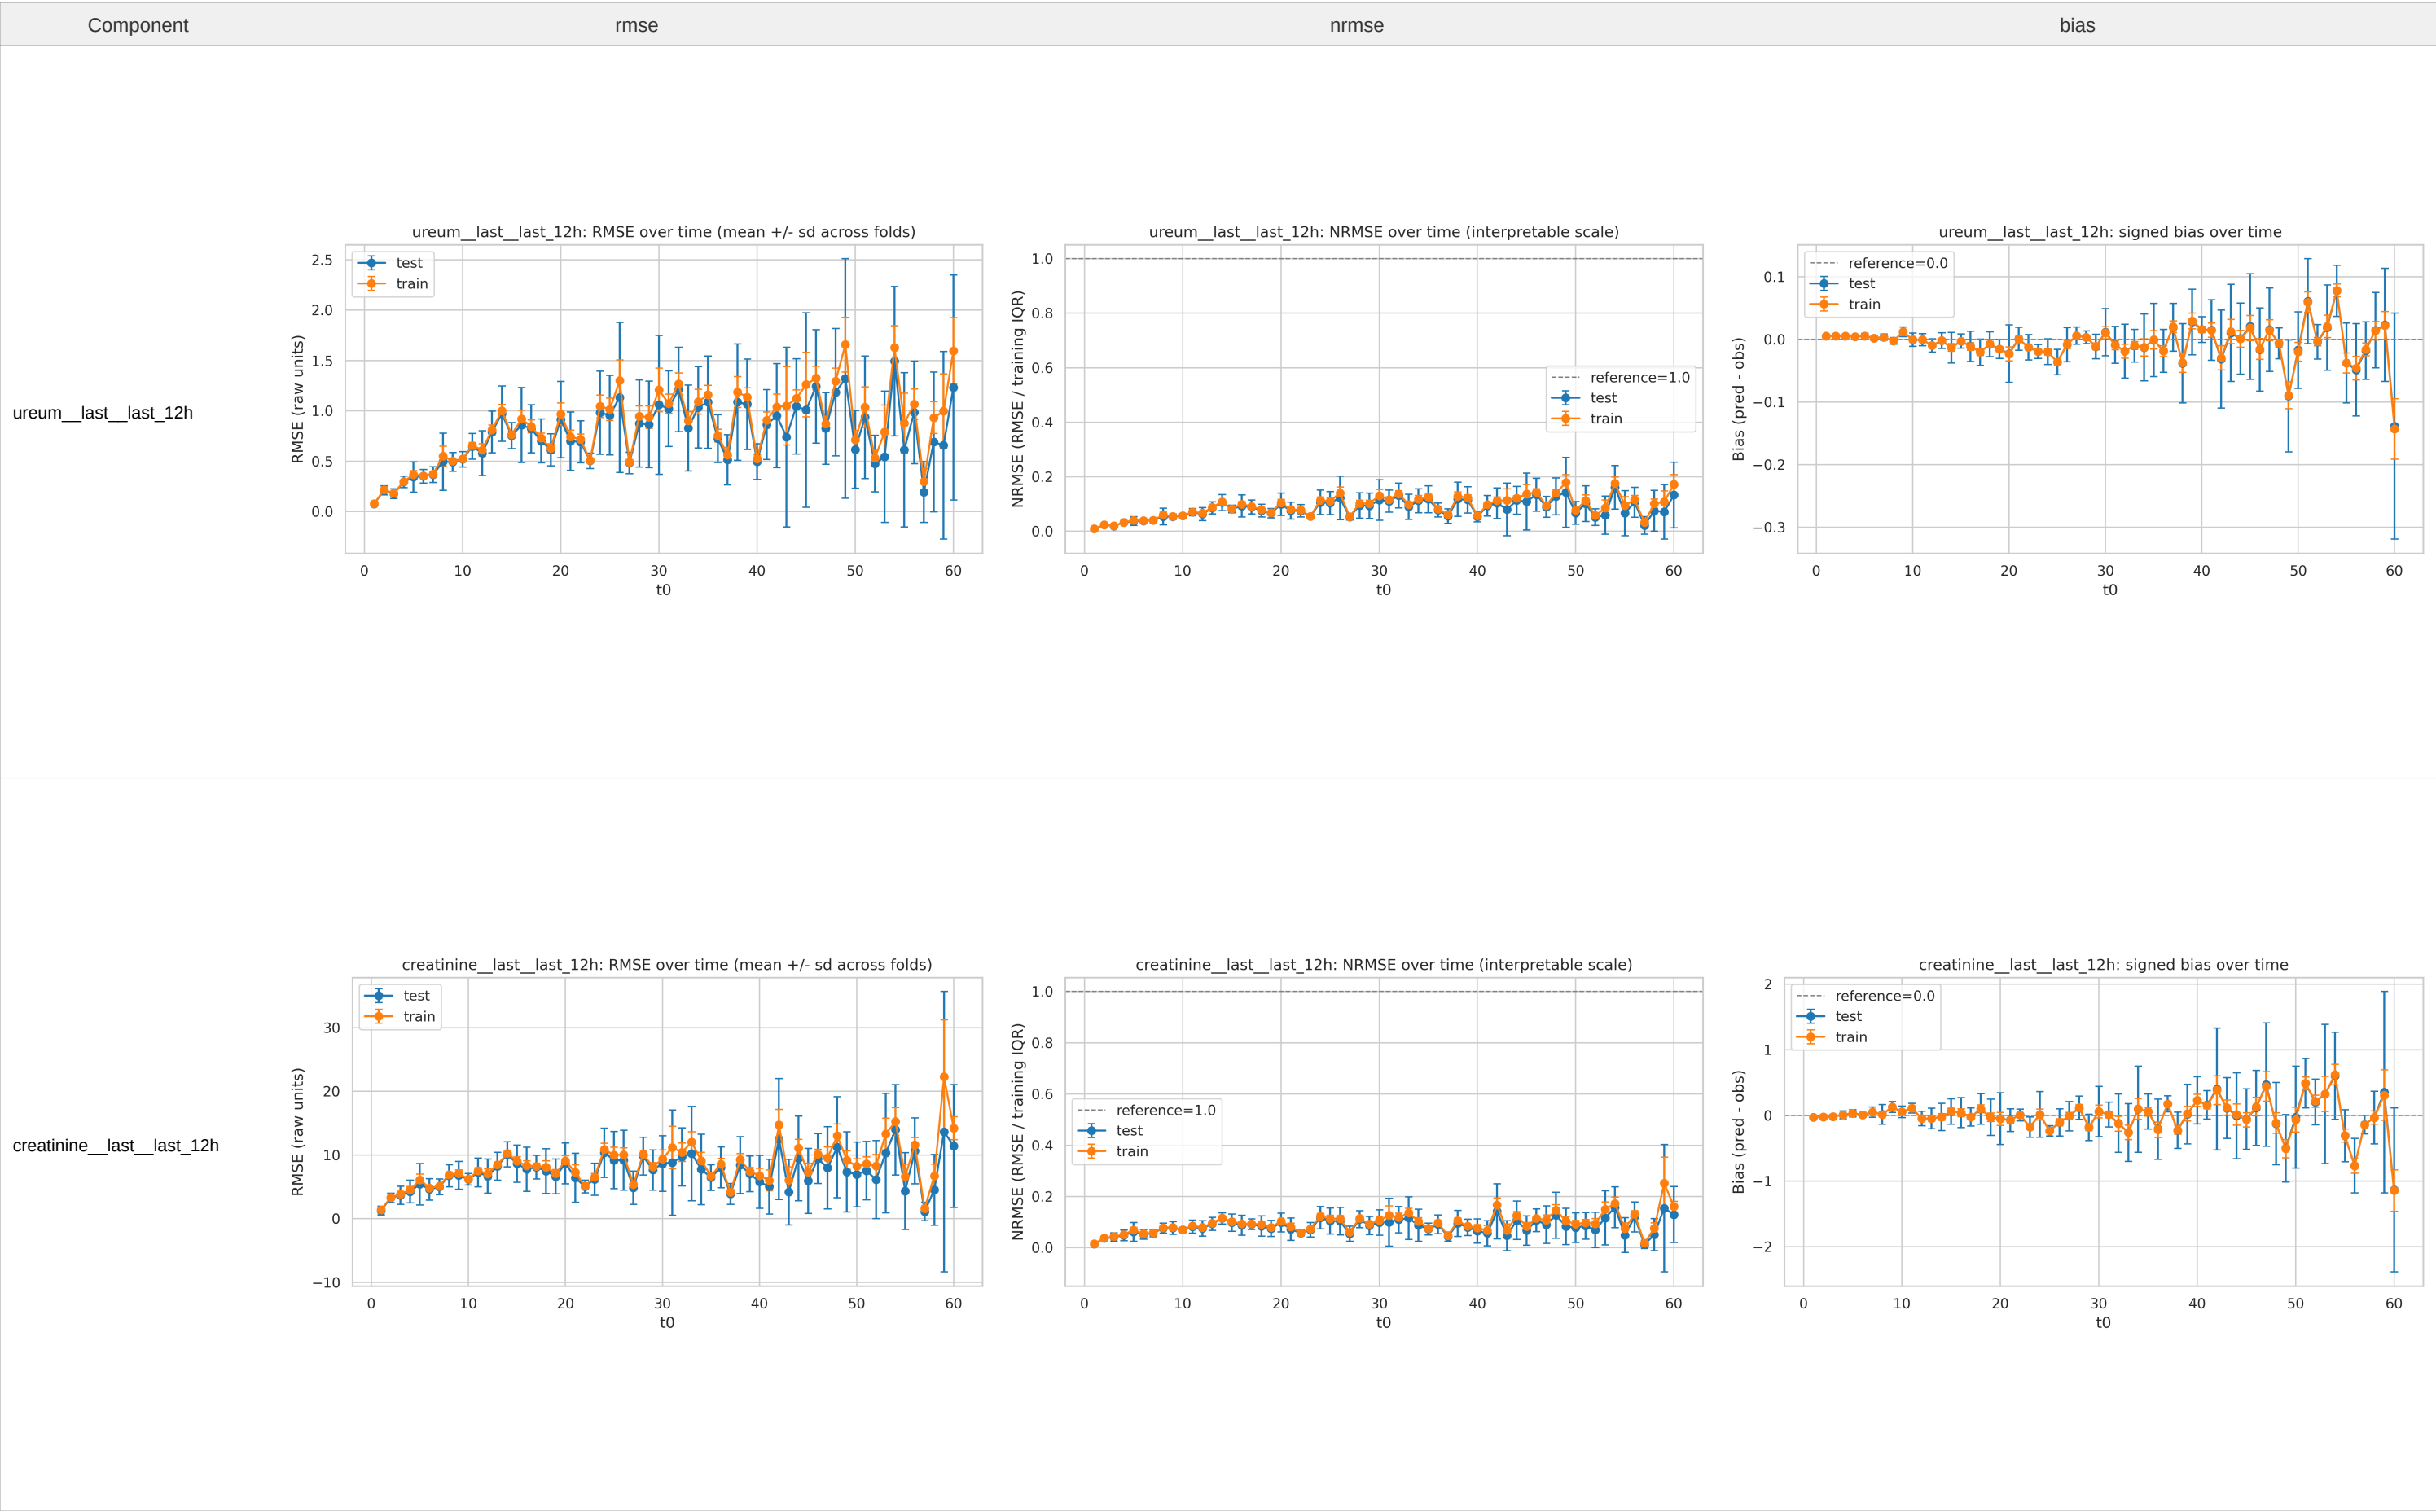

1. Continuous covariates (columns: RMSE | NRMSE | Bias)

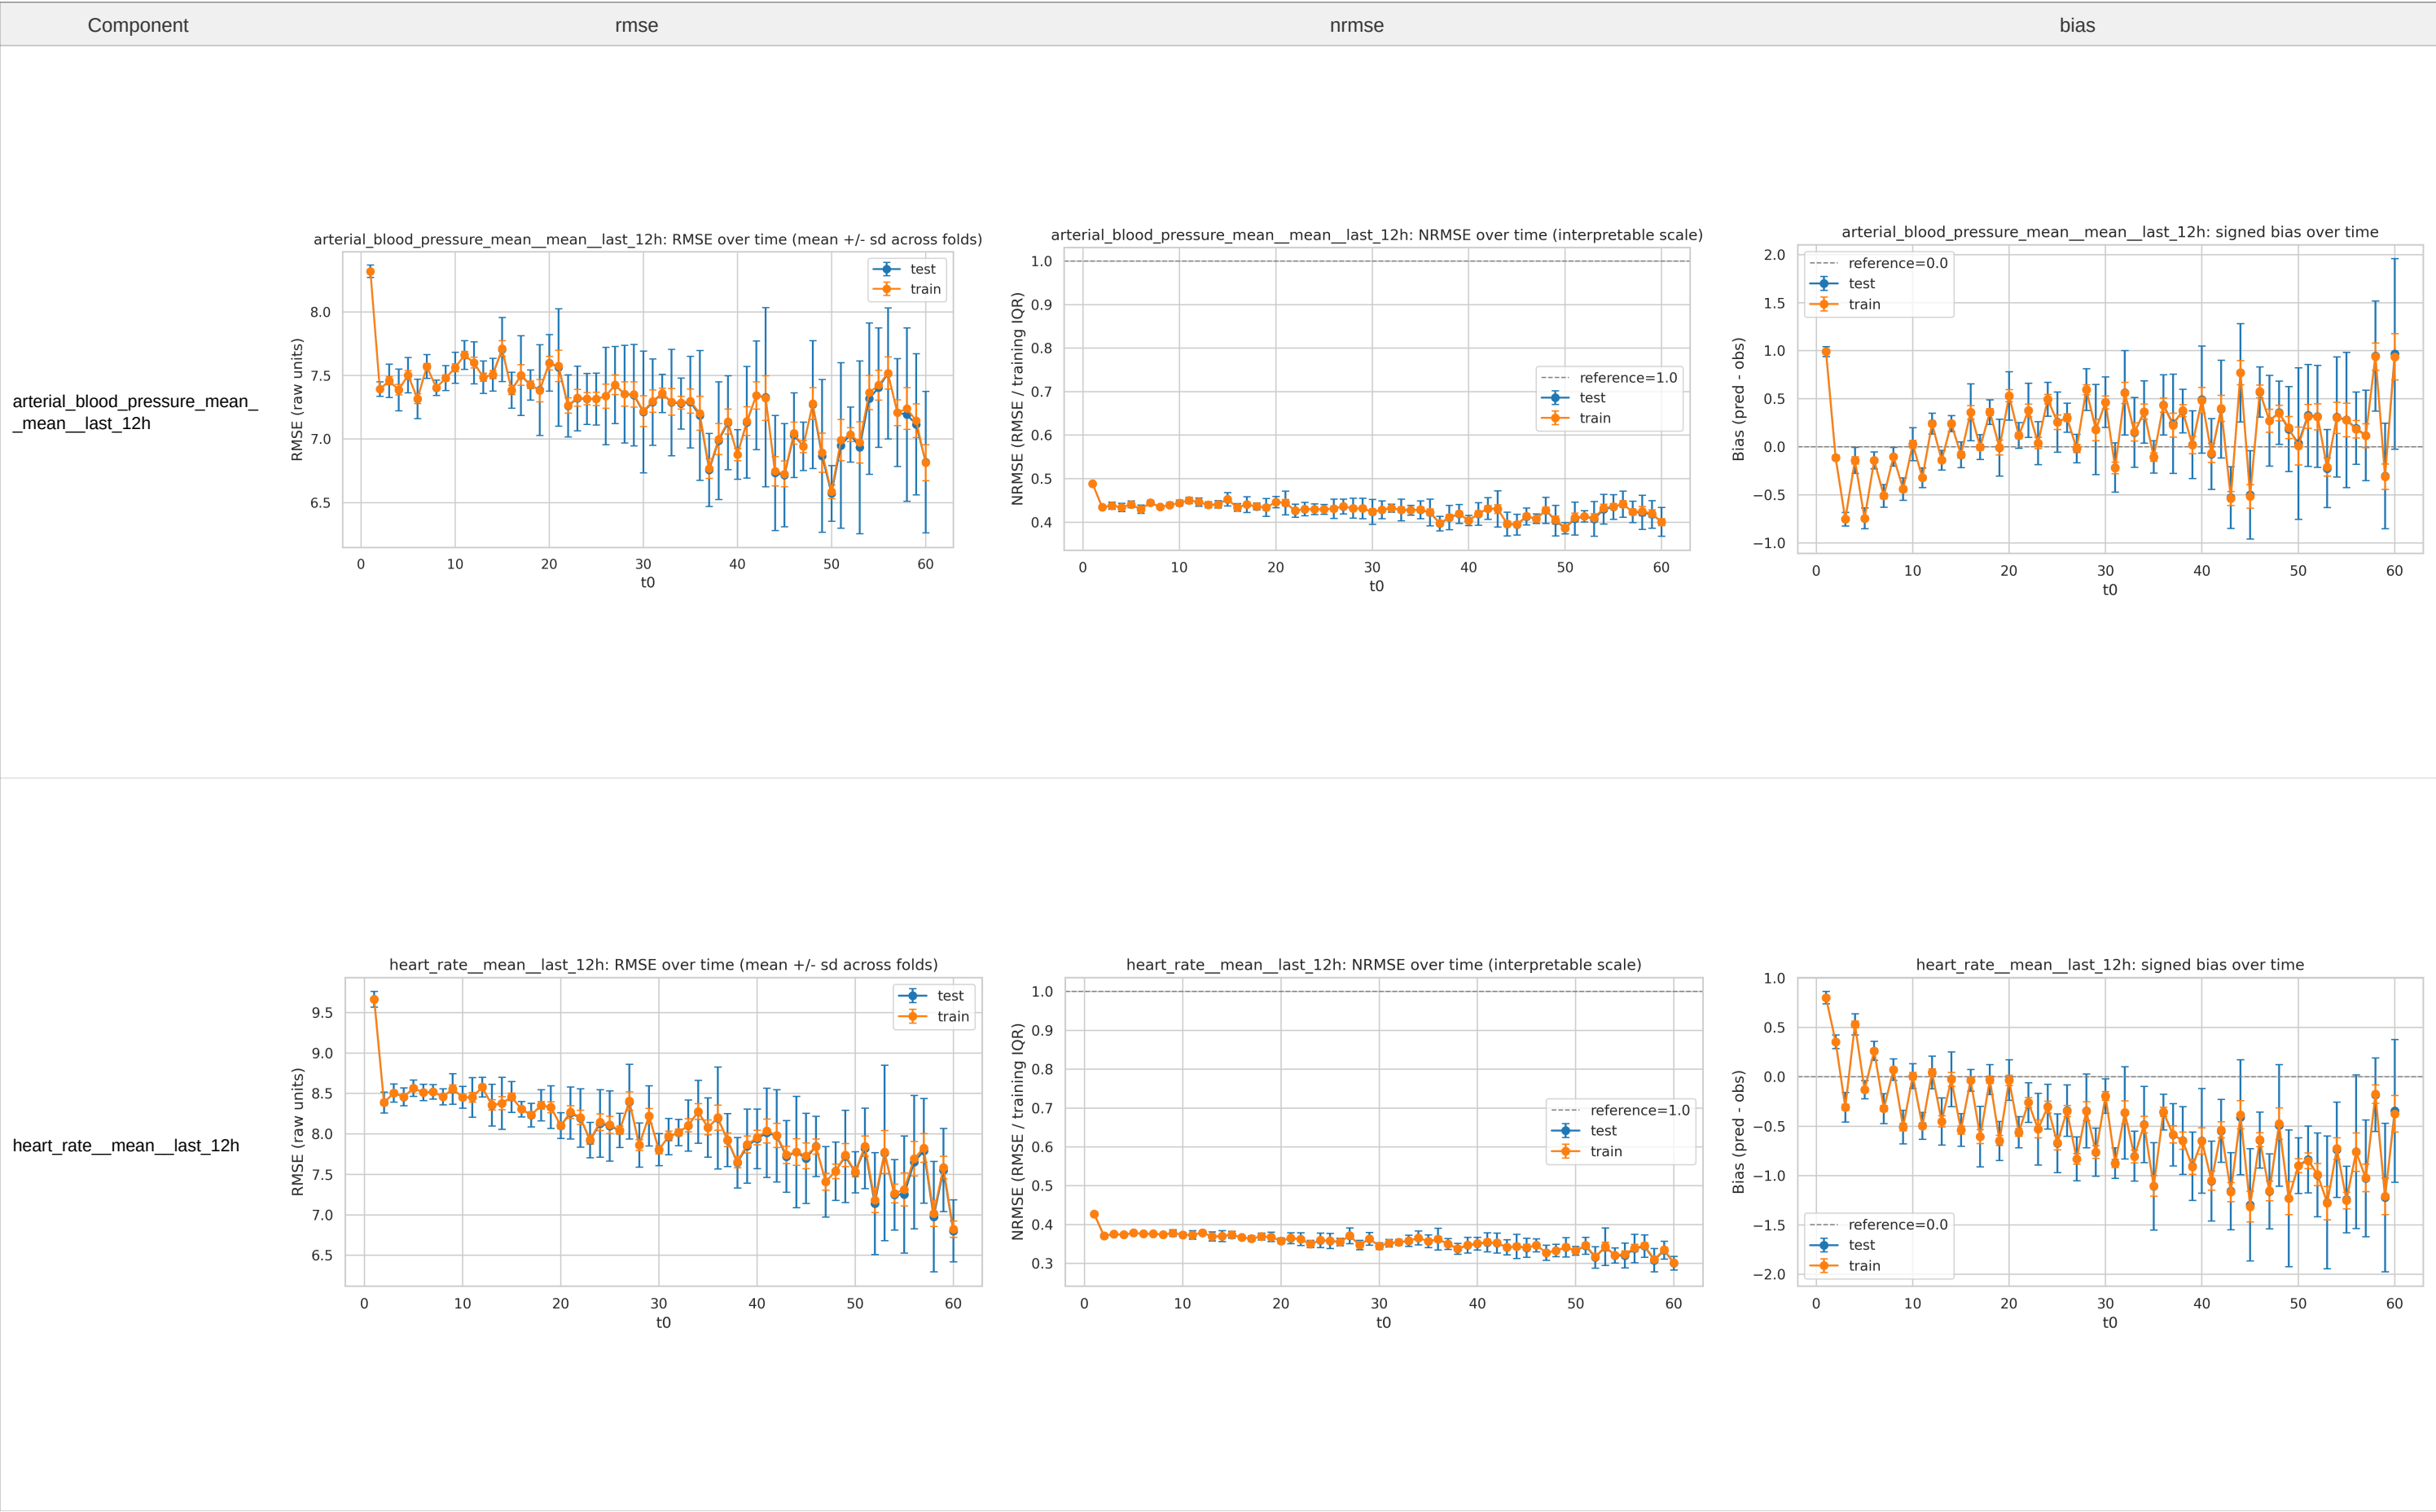

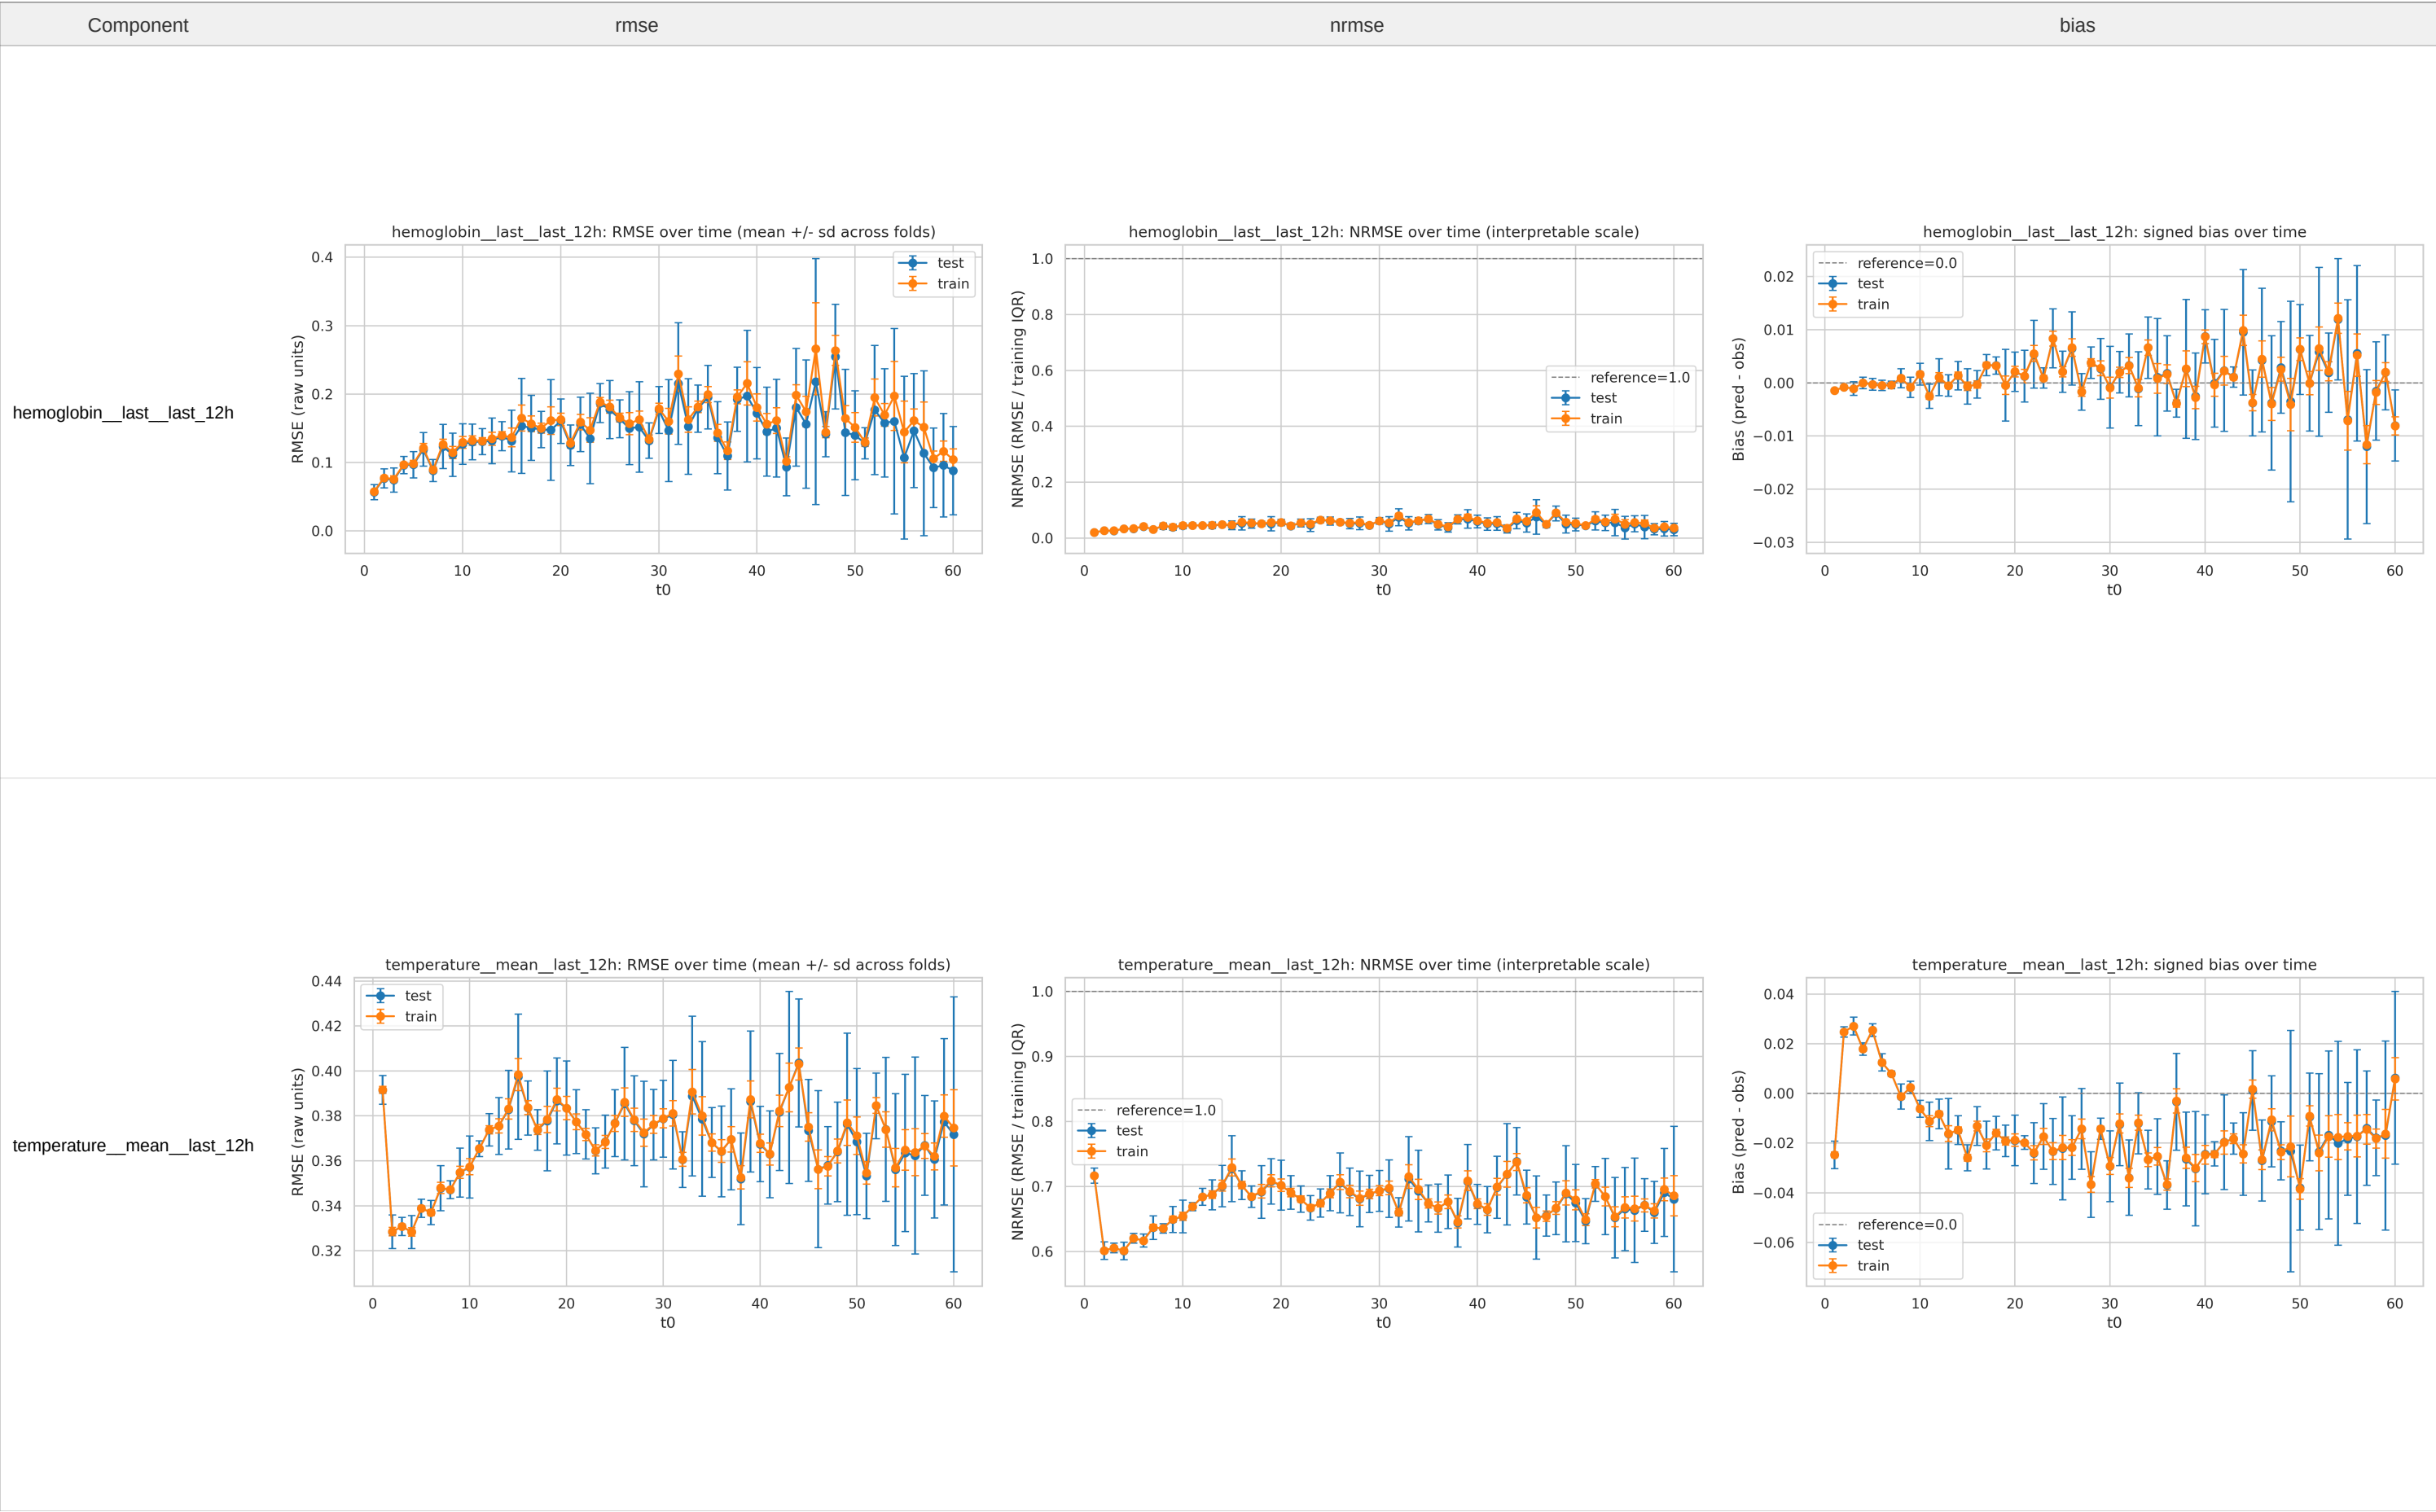

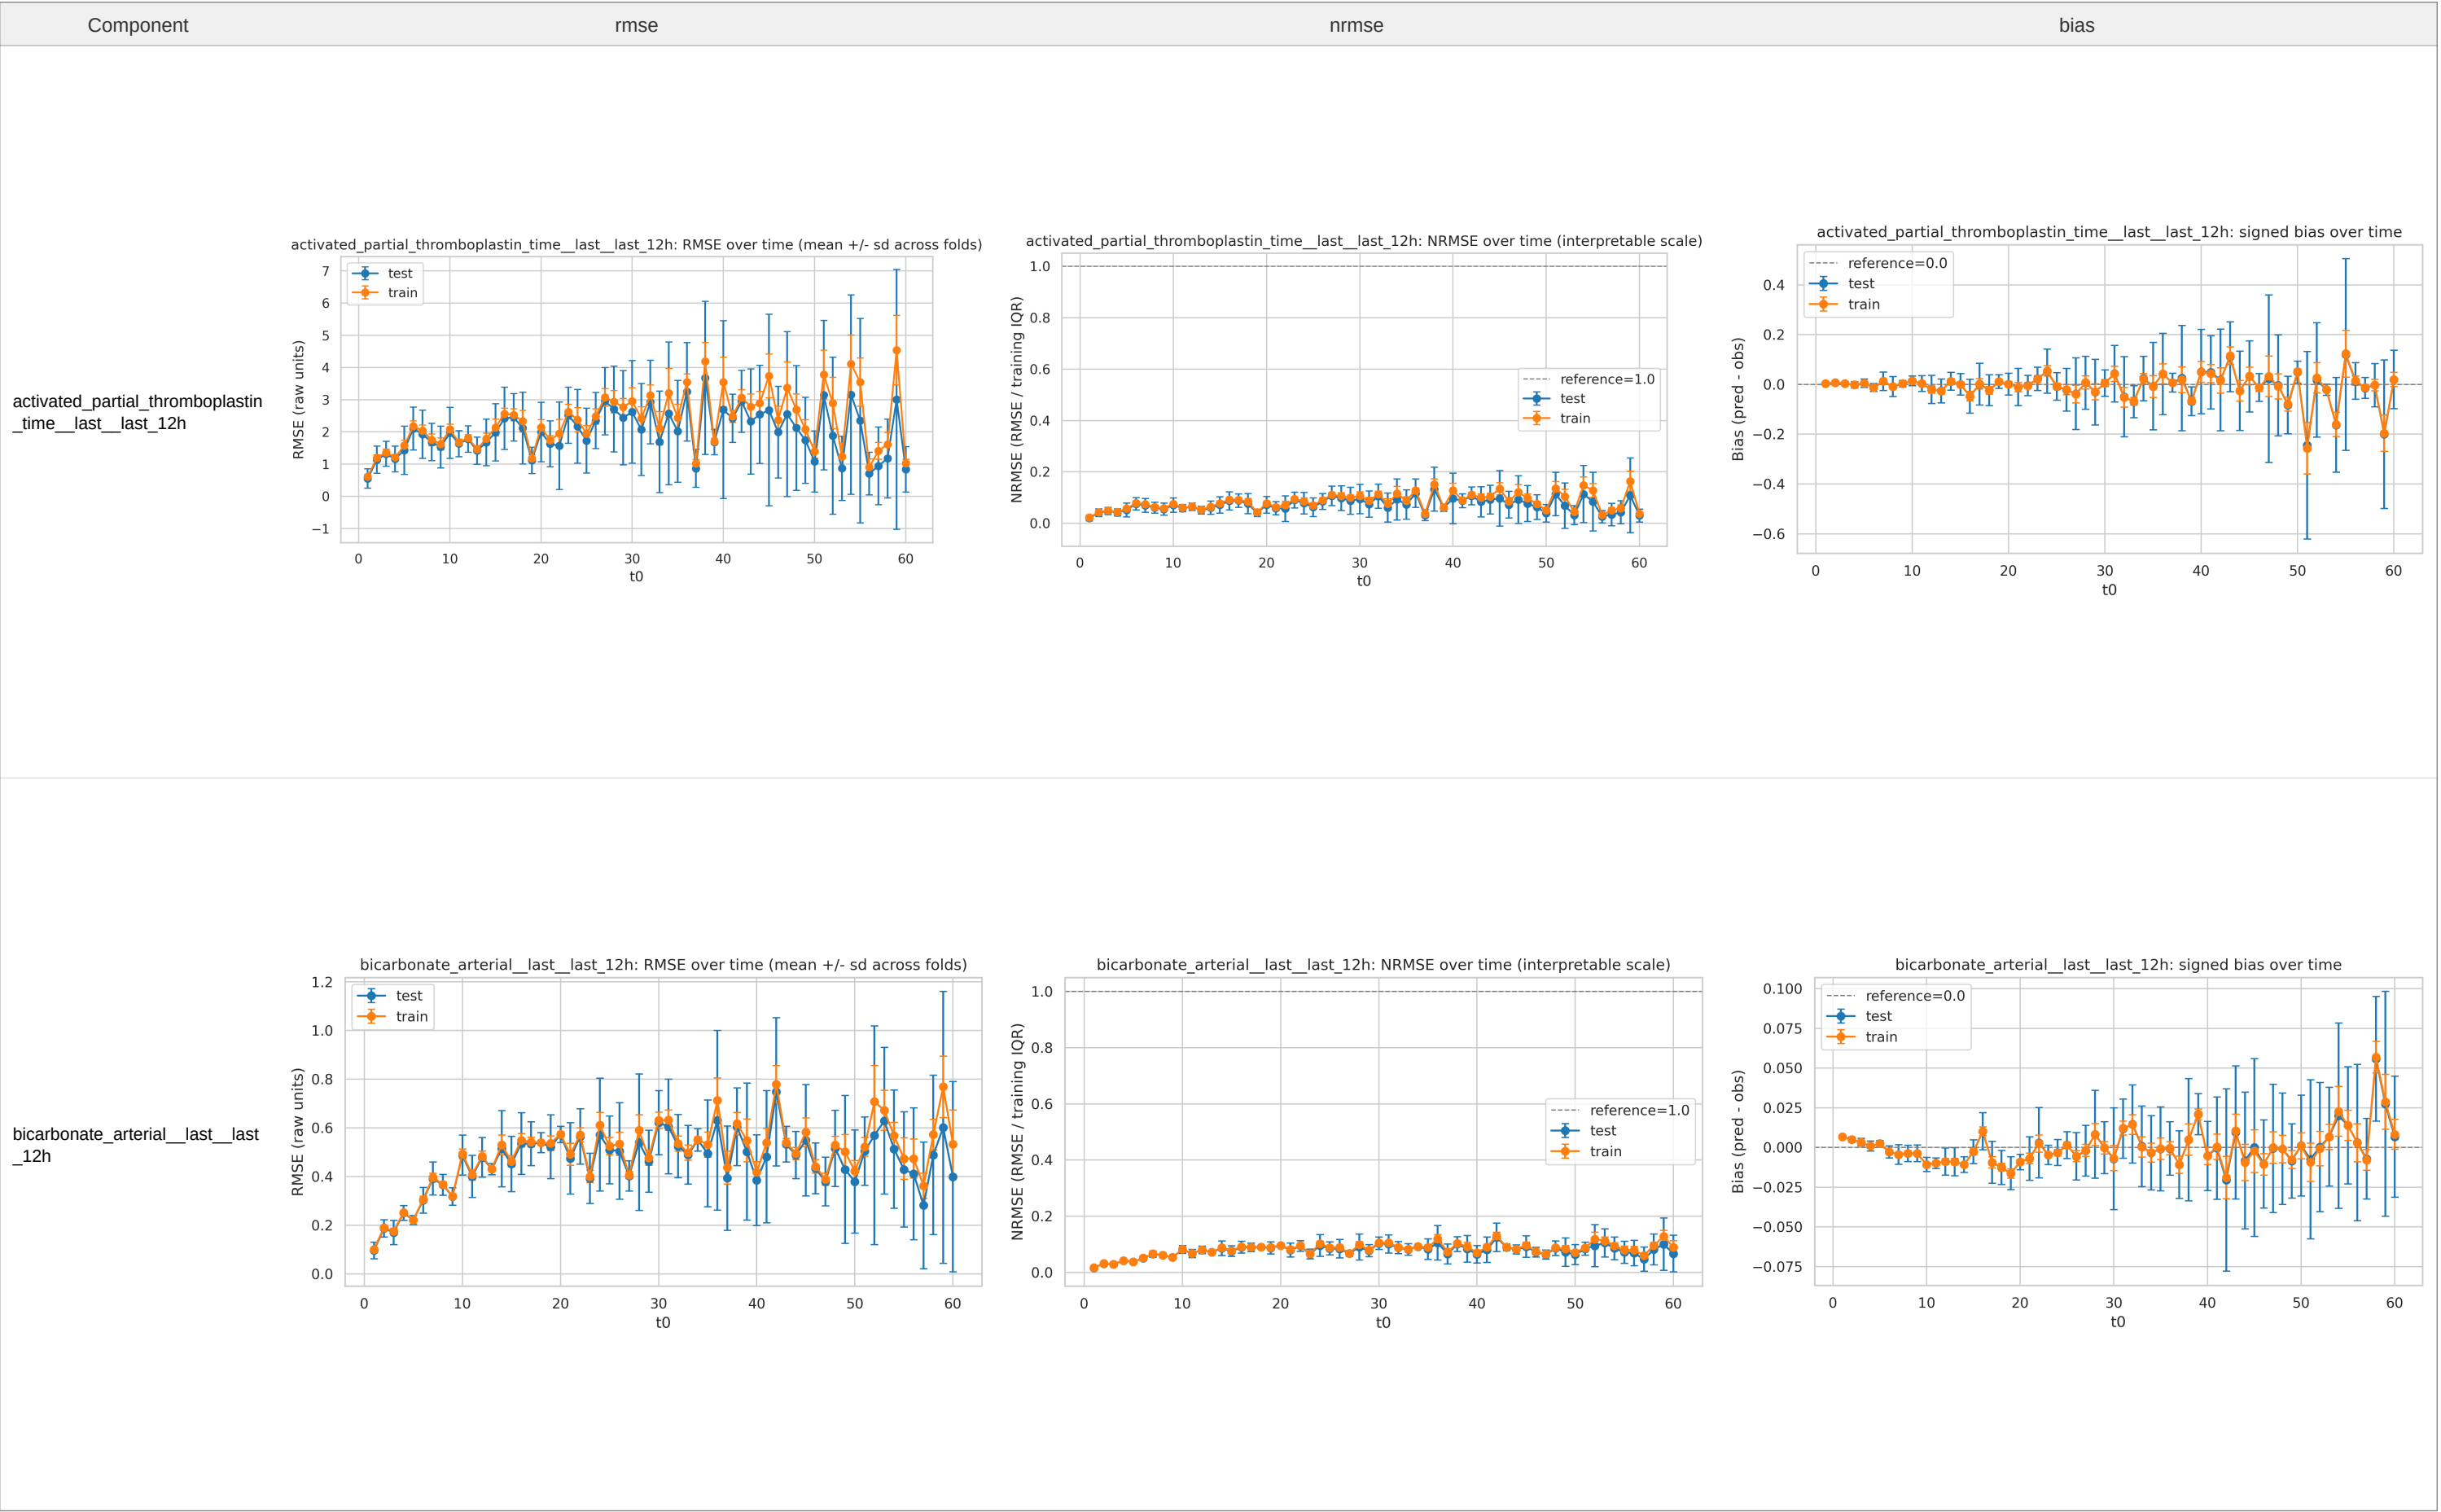

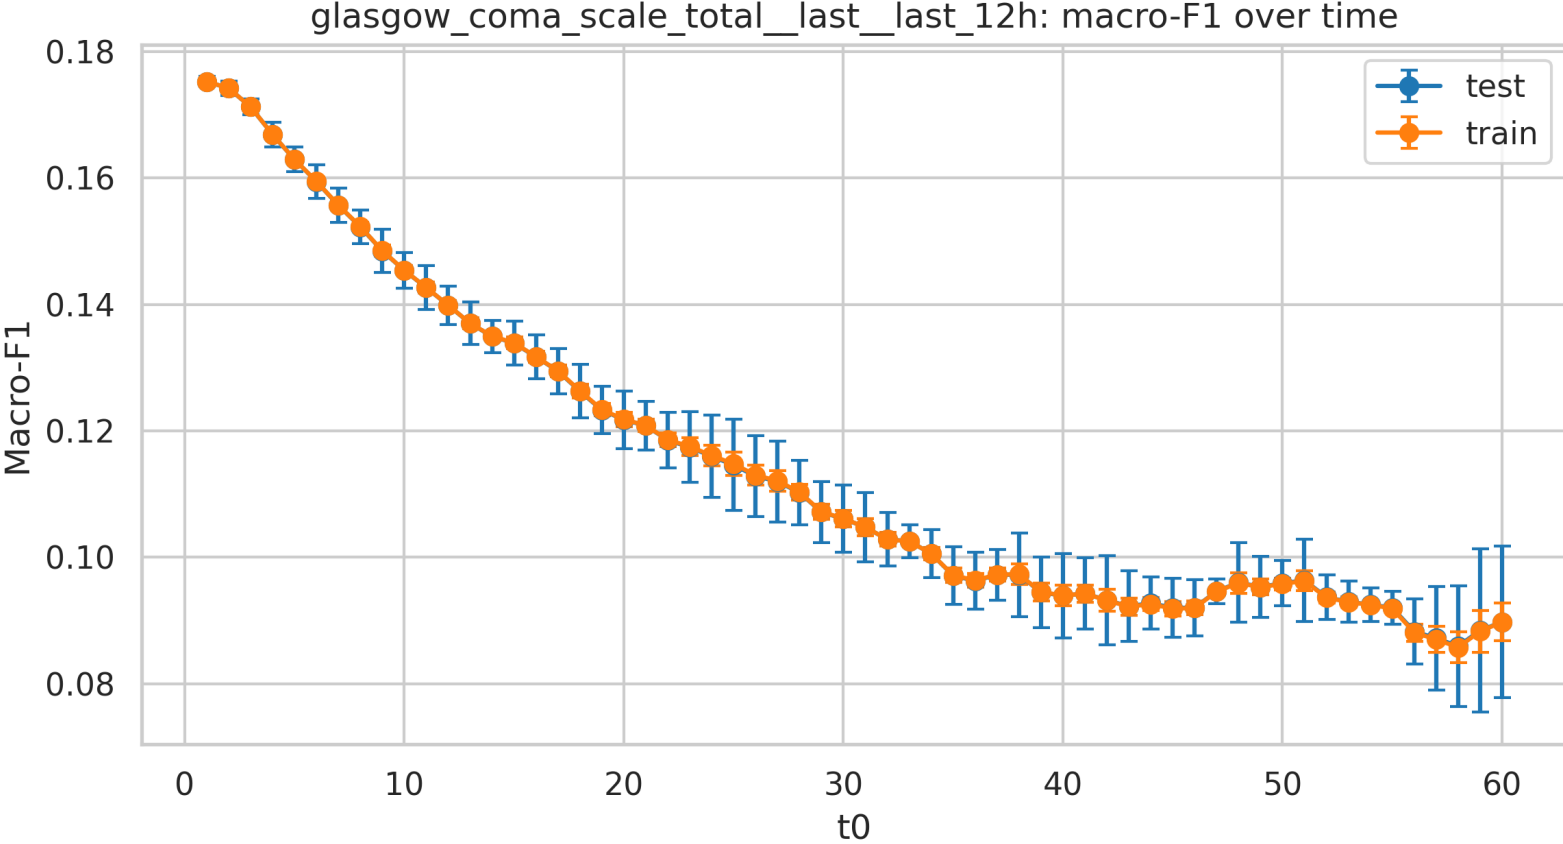

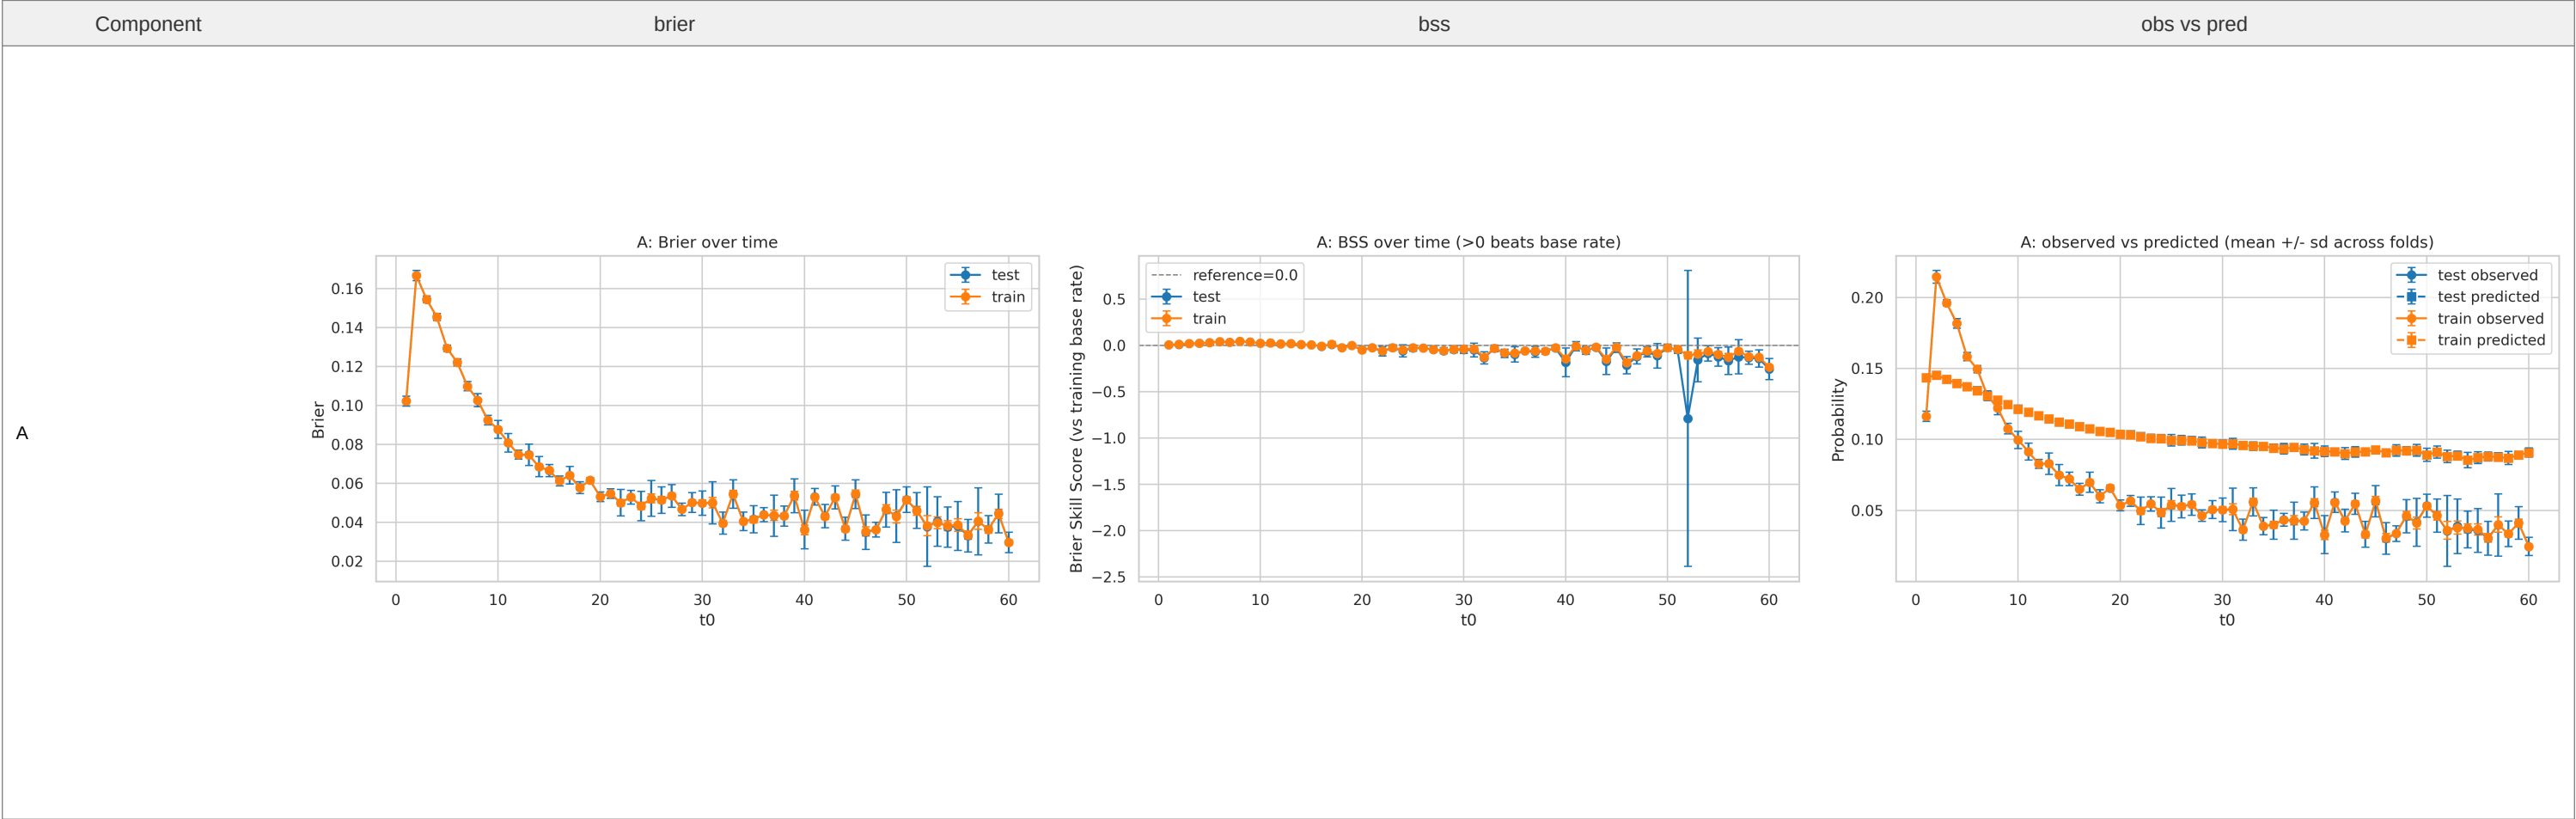

2. Categorical covariates (column: macro-F1)

t__last_12h

3. Binary covariate A (columns: Brier | BSS | Observed vs. Predicted)

4. Discharge / censoring model I (columns: Brier | BSS | Observed vs. Predicted)

5. Outcome model Z (columns: Weighted Brier | Weighted BSS)
